WHY SLOVENIA?

Foreign direct investment (FDI) is equally important to Slovenia's economic growth as it is for global GDP and jobs worldwide. The Slovenian government has been working on improving the environment to attract quality business to the country and, in turn, create new jobs. For Slovenia as an FDI location quality has always been its core value and its cutting edge. Attention to quality runs in the blood of its people and in combination with vocational and university education makes the country's workforce often **No. 1 reason to invest** in Slovenia.

WHEELY - THE ELECTRIC VEHICLE FOR DISABLED PEOPLE

The electric vehicle WHEELY has been developed based on years of experiences of developing different kind of vehicles - vehicles powered by electric engines and by internal combustion engines. Basic development guidelines of WHEELY were:

- attractive shape,
- high safety standards,
- competitive production price,
- low maintaining costs,
- low registration costs,
- very long life span (which could mean extended warranty offered to costumers),
- modern and environmentally friendly materials,
- efficient drive train,
- the vehicle made by EU strategies, EU guidelines and EU standards, innovative technical solutions.

The WHEELY is attractive, modern, easy to maintain 2-3 seated vehicle for urban transport and is solving the problem of independence and mobility of disabled people. It is market-orientated.

The WHEELY vehicle is developed with the help of EU funds. It is distinguished by ...
