SMART.

INVESTMENT OPPORTUNITY:

SMART VILLAGE SUN

WHY SLOVENIA?

Foreign direct investment (FDI) is equally important to Slovenia's economic growth as it is for global GDP and jobs worldwide. The Slovenian government has been working on improving the environment to attract quality business to the country and, in turn, create new jobs. For Slovenia as an FDI location quality has always been its core value and its cutting edge. Attention to quality runs in the blood of its people and in combination with vocational and university education makes the country's workforce often **No. 1 reason to invest** in Slovenia.

- Well-developed ICT infrastructure
- Strong healthcare system

SMART VILLAGE SUN

»Smart Village« ecosystem of smart sustainability and circular economy in rural areas.

A »smart« rural settlement for 100 inhabitants is being built in the midst of the pristine Koroška region. It is being built with sustainable materials without waste and it will be upgraded with state-of-the-art digital technology. In a hybrid environment, we will physically and virtually connect global stakeholders who want to participate in the innovative development of the necessary system changes for the green transition.

The »Unique selling proposition« (USP) of the Smart Village Sun project introduces the “Space as a Service” model, which is a combination of an exceptional living experience, work and research in the natural environment of Smart Village Sun and its surroundings. The project connects the physical environment with virtual, communicational, collaborative, project, research, consulting and educational environments. This enables global inclusiveness and the opportunity for the cooperation of numerous stakeholders from all over the world in real-time (virtual world).

Smart Village SUN will serve as a representative model village and a development and ...
